

## Ready for adventure

### What does this mean for customers?

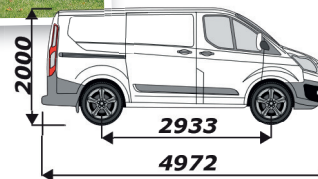

Hi there! I'm Richard. I've been building campervans for over 20 years and can offer a wealth of expertise and knowledge. Orange Campers is a small family run company. As camper enthusiasts we understand what makes a van work, that's why we build in many 'extra' features as standard.

With practicality and quality at the heart of every build, we have designed a campervan that is truly ready to go and it won't disappoint! We have incorporated some luxuries on the van itself, as well as practical essentials to ensure your vehicle will run smoothly whilst you are off grid – including the lithium battery package, 200 Watt solar panel and 90 litre family size fridge.

Safety and security is paramount with a fully crash tested triple seat with Isofix for your child seats, an SCA crash tested high quality elevating roof, additional passenger and side airbags, plus we fit all of our campervans with a Thatcham approved tracker system to ensure maximum security. It's the little things that make a difference whilst you are on your adventures!

\*You can of course still choose additional extras! Please take a look at our website for options available, and you also get to choose the interior furniture and flooring finishes from our extensive online range!

*- Words from the owner, Richard*

### Specifications:

- Travel Seats: 4/5

- Gross weight: 3200kg
- Estimated payload: 525kg
- Maximum towing weight: 2500kg

### What our customers say...

"All in all a wonderful experience made perfect by people that understand campers and build them to suit your needs and build quality is second to none - you won't be disappointed."

*- Kev & Jan Kingsworth*

"Richard, Sonya and the Team kept us updated throughout and we collected "Frankie" at the beginning of June. The quality of the finish is fantastic, the attention to detail and the thought that had gone into lots of the features shines through. We love that Orange Campers has an Owner's Club Facebook group where we can share pictures and tips with other owners and the Orange Team."

*- Phillippa Harrison*

# Trouvaille Actif

Say yes to  
pursuing your  
dreams

## *A perfect drive, wherever your journey takes you*

The Orange Campers Trouville Actif is built on the Ford Transit Custom Active, a base vehicle with a car-like drive and impressive capability, as well as a striking exterior design which will stand out from the crowd.

We include many extra features as standard: This generous five-seater can comfortably accommodate a family. Safety is priority with a RIB crash tested triple or double seat and Isofix child seat fixing points. It also features one of the largest double beds in its class, plus the luxury SCA roof bed is one of the largest available with the extra comfort of the Froli sprung mattress. The kitchen is fully equipped, including an impressive 90 litre family size fridge / freezer, plus an external BBQ point for your outdoor cooking needs.

The roof rails are ready to carry your sporting equipment and the external shower is there to hose it down if needed. Plus, the 200W solar panel comes as standard to allow you to off-grid whenever you fancy breaking free from routine.

Mechanical limited-slip differential guarantees you will always keep moving on challenging terrain. Luxury comes as standard with 17" alloys, heated seats and premium partial leather trim. It's the perfect versatile 'van to take you places, whether it's for work or adventure. What are you waiting for...?
